# Air Wash 2000

## Dual Purpose Variable Speed

### 1300 CFM of Air Scrubbing Power

*Flexible, cost-effective system designed for Restoration, Renovation and Indoor Construction Specialists with Interchangeable Carbon\* for Odor & Chemical Control, or Alternatively HEPA Filtration for Particulates.*

*\*100 lb. canister of activated granular carbon for mitigation of Volatile Organic Compounds, Chemicals, Gases, & Odors*

**Cleans up chemicals, odors & gases, as well as mold & fungal mycotoxins**

*40 Specialty Blends of carbon available for Specific Chemical Problems or general all purpose carbon that can adsorb over 4,000 hazardous chemicals*

### High power for chemical, odor, gas or particulate removal

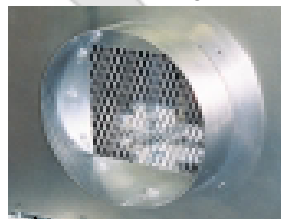

#### Features

- Medical grade HEPA filter, 24" x 24" x 11 1/2"
- Variable speed motor blower up to 1300 CFM purifying power, 1600 CFM Free Flow
- 7 1/2 lbs granular carbon filter
- 18 gauge, polished galvanized steel body for durability
- 4 handles and 4 industrial wheels, (2 swivel, 2 straight). Easy to maneuver
- Industrial ball bearing wheels
- Dimensions: 26 1/2" x 26 1/2" x 37"
- 12" Hose attachment flange for Negative Air
- Quick change (1/2 minute) pre-filter, 24" x 24" x 1"
- Quick change (1/2 minute) dust-filter, 24" x 24" x 1"
- DOP tested

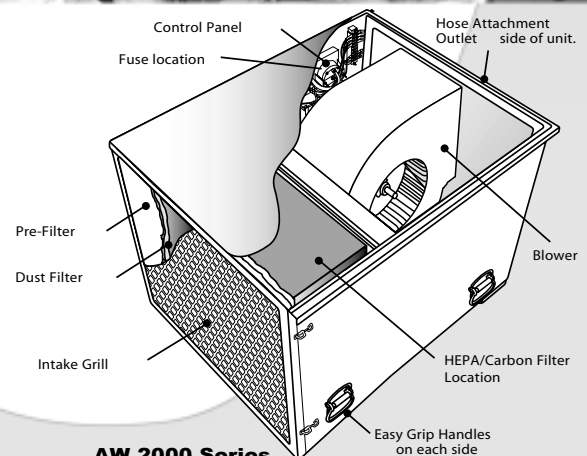

#### Options

- 2000 CFM and high capacity filters (additional price of \$200)
- UV germicidal lamp, 10, 20 or 40 Watts
- Collapsible Mylar hose and hose clamps
- 18" x 24" x 37 1/2" Housing available
- **100 lb. canister of granular carbon** for chemical, gas, and odor abatement
- Motor before filters (vertical model)
- Metal frame or gel sealed HEPA filter
- **Horizontal and vertical configurations**

**AW 2000 Series**  
12" hose attachment outlet for negative air

Grill is an integral part of the unit

**AW 2000 Series**  
Detailed schematic.

Model  
**AW 2000 Dual Purpose VS**  
HEPA filtration & 7 1/2 lbs of carbon  
\$ 1499.98

Model  
**AW 2000 Dual Purpose VS**  
100 lb. canister  
of granular carbon,  
no HEPA  
\$ 2099.98

FlyerAW2000\_DP-VS, February 14, 2005

**Use the power of 1000 CFM with Activated Carbon or HEPA filtration**
