

3444B DOWNDRAFT TABLE

This is our most popular table. It measures 34" X 44" and weighs 375 lbs. also comes standard with 3 1/2" rigid casters. The 3444B is available on 110 volt or three phase electric. The tough rubberized table top has side ports to provide extra dust collection. 99.95% of all particle sizes 0.5 micron and larger are cleaned through the cartridge filter. Pushbutton cleaning blows dust off the filter and drops

it into the drawer below. A timer for automatic filter cleaning is also available.

Some Materials Handled by the 3444B

- Pharmaceutical powders
- Copy toner
- Processed food powders
- Metal powders
- Ceramic powders
